

# Our Team

ROAD ASSESSMENT AND MAINTENANCE MANAGEMENT

excellence in asset management

At RAMM Software Limited, a vibrant, self motivated team of professionals with excellent academic backgrounds and technical exposure offers a unique blend of software experience and a strong technological maturity.

Our team is a mix of experienced software developers, engineers and trainers with expertise in different domains of technology, software development, business management, sales and marketing, education and research.

Everyone contributes to the company with their in-depth knowledge, skill and experience in their individual fields.

## 20 YEARS

In the 20 years, since our inception, RAMM Software Limited (formerly CJN Technologies Ltd) has focused on the development and improvement of our range of software solutions, utilised by NZ road controlling authorities and engineering consultants, based around our core product RAMM (Road Assessment and Maintenance Management).

## NEW ZEALAND AND AUSTRALIA

RAMM and its associated products are used by or on behalf of all road controlling authorities in New Zealand to provide

accurate information on all forms of road assets in a timely and up-to-date manner. Australians in a number of States are now appreciating the benefits of RAMM and its associated products.

## OUR STRENGTH BENEFITS YOU

The strength of RAMM Software Limited lies in our understanding that our clients' success depends on our ability to deliver relevant high quality solutions, on time and on budget.

Supported by our creativity, technical expertise and willingness to go the extra distance, we provide a solution that is an integrated component of your business.

## OUR COMMITMENT IS THE KEY

Our commitment means that we are always maintaining, improving and striving to anticipate changing requirements, providing the maximum possible future-proofing to all our product range.

This reduces the ongoing costs to you, ensuring a strong relationship continues far beyond the initial implementation.

RAMM Software Limited firmly believe in taking the time to get to know and understand your business and your goals.

We look within and beyond each requirement to reconcile short-term need with long-term goals.

We strive to give you exactly what you need, not necessarily what you expect.
